

## "Tell Congress To Take A Pay Cut!"

As the economy continues to lean closer toward a depression and Americans are losing their jobs and homes we ask that our elected officials do their part to help spread the wealth.

We want all members of congress to take an immediate 25% pay cut and that a wage-freeze begin immediately. This wage-freeze should remain in effect until the economy has completely recovered.

We want our elected members of congress to begin paying into social security instead of their privately funded retirement program.

We want our elected members of congress to pay their own way to and from work and for their meals (like the rest of us) instead of using a government expense account. This should also include using your own vehicle versus a government car.

These are hard times in America and your jobs are secure at least until the next election. Ours are not. We are losing our homes and forced to pay into social security and being a public servant should not equate to being an elitist.

*We have sent 291 letters to Congress so far. Please join us!*
