

## "TELL Congress to stop wasting taxpayer dollars!"

We do not want you to pass any bill that contains pork that has nothing to do with the goal of the bill. The new stimulus bill is crammed with unnecessary waste that has nothing to do with creating jobs and/or stimulating the economy.

Our president has said that he will bring change to Washington D.C. My question is when? So far, all we seen is more of the same. Our elected officials do not listen to us even though we elected them to be our voice. We want our president to set the example and require that Congress do their job and create clean bills that are cost efficient and effective. We do not want a bill to get all the way to the Senate and depend on cuts to make it right. We expect our elected officials to "make it right" from the start. No one in their right mind would think that birth control or STD studies would create jobs or stimulate the economy--it should have never been in there to start with.

NO MORE PORK in bills. If you want to address these important social issues then do it in an appropriate social bill -- don't lump it in a rescue package and toss it on the back of the American Taxpayer!

We the people are sick and tired of the taxpayer dollars being use to bailout the wealthy! We are here to notify you that the only NEW bailout that we will support is as follows:

A \$100,000 check will be issued to every American (man, woman, and child--NO illegal aliens are eligible) immediately. The American Taxpayer can use this money in any manner he/she deems necessary. A parent/guardian will have control of all funds issued to a minor under the age of 18 years old.

NO other bailouts are acceptable to us! So cut US a check or put away the checkbook!
